

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

Seventh Annual Report

OF THE

Department of Banking

OF THE

State of Minnesota

---

At the close of the fiscal year ending July 31, 1915, the Superintendent of Banks had under his supervision the following institutions: Nine hundred twenty-seven commercial banks; nine trust companies; ten savings banks; sixty-five building and loan associations; four so-called "other financial corporations." At the close of the fiscal year ending July 31, 1916, he had the following: One thousand three commercial banks; twelve trust companies; nine savings banks; sixty-six building and loan associations; six so-called "other financial corporations."

The present law specifically provided for six bank examiners and six assistant examiners for the examination of the above named institutions. This law should be changed and we should have at least nine regular bank examiners and as many assistants as the needs of the department require on account of the large increase in the number of banks, trust companies, etc. At the present time, the assistant examiners are doing the same work as the regular examiners because of the great number of banks. The legislature two years ago increased our appropriation \$2,000 in the contingent fund but this should again be increased.

The so-called "other financial corporations," now numbering eight, are charged for the work of the examination, directly, and the money received is credited to our contingent fund.

**Liquidation of Closed Bank.****Osseo.**

The Osseo State Bank was closed on July 10, 1915, on account of the serious defalcations of the cashier. Mr. J. A. Anderegg was appointed "special examiner" in charge of this bank. On February 19, 1916, a fifty per cent dividend was paid to the creditors, after a one hundred per cent assessment was levied on the stockholders of the bank. Another dividend will not be paid until the suit which is pending between the United States Fidelity & Guaranty company and the Osseo State Bank on account of the company's refusal to pay the bond of Joseph B. Thompson, is settled.

**White Earth.**

I am pleased to state that I have received sufficient funds to pay a 100 per cent dividend to the creditors of the Chippewa State Bank of White Earth, without levying an assessment on the stockholders.

**Winnebago.**

The final liquidation of the State Bank of Commerce of Winnebago was made on March 10, 1916, at which time a 6 per cent dividend was declared, making a total of 86 per cent paid the creditors of that institution. At the time this bank failed, it looked as though it might not pay to exceed 15 or 20 per cent. Mr. M. C. Dalton, special examiner in charge, is to be congratulated upon the excellent manner in which he handled the assets of this bank.

After an examination by this department on November 18, 1915, the Corporation Securities company of Minneapolis was found to be insolvent and a petition was made to the District Court of Hennepin County to have a receiver appointed. The court appointed Mr. Charles G. Laybourn of Minneapolis and on November 24th the department surrendered all books, papers, securities, etc., belonging to this company.

On June 3, 1916, the Bankers' Home Mortgage company of Minneapolis, a South Dakota corporation, was examined by this department and on advice of the Attorney General, a special examiner was placed in charge. The company also being insolvent is handled temporarily by the department until disposed of by the court.

The department is still of the opinion that some legislation should be passed with reference to the regulation of granting charters. In practically every state in the Union, except Minnesota, there is authority somewhere to refuse charters under certain conditions. This matter is one, we believe, that should be given careful attention of our state legislature at the coming session.

Respectfully submitted,

ALBERT H. TURRITTIN,

Superintendent of Banks.
